The Classic GMC Motorhome

The GMC Motorhome was produced by the General Motors Corporation from 1973 through 1978. Its innovative design gained a strong following which remains just as strong, or even stronger, today.

With almost 13,000 units produced in Michigan over that five year period, a majority are still on the road to this day.

The design, front wheel drive, low profile, rear air suspension and several other unique features make this motorhome a true classic.

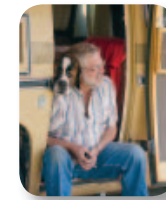

The GMC Motorhomes International

The GMCMI is an organization to offer technical support along with fellowship. The chapter was chartered in 1982 and has a membership of over 1,500 GMC motorhome owners. The chapter provides members with the following benefits:

- A quarterly technical publication that provides an exchange of ideas and technical information.
- Annually updated index of published articles and an invaluable Parts Interchange List.
- Two national conventions that provide a means to participate in technical and non-technical seminars, training sessions, discussions and fellowship. Broad member participation is insured by holding these in premier facilities across the country.
- A membership directory which can prove invaluable when traveling can provide a source of camaraderie and local service.
- A website where members can get the latest information on all types of GMC Motorhome activity, technical support, classified ads and important links to suppliers.

Membership is open to all GMC Motorhome owners and enthusiasts of the marque, provided FMCA membership requirements are met.
