TIRE INFORMATION

Tires are covered by the tire manufacturer’s guarantee. While the guarantees of the various tire manufacturers vary in language, they provide in general that MotorHome tires installed as original equipment at the factory are guaranteed to the owner to be free from defects in material and workmanship for the life of the original tread, as follows:

The tire manufacturer will, at its option, repair the tire without charge or make a pro rata allowance based on the amount of wear on the original tread toward the purchase of a new tire at the tire manufacturer's current Adjustment Base Price for any tire which is found by the tire manufacturer to be defective. Transportation costs and taxes must be paid by the owner and service charges may be made in some instances.

Tire guarantees are issued only by the tire manufacturers, and they specifically provide that consequential damages are not covered by the guarantees.

Any authorized GMC MotorHome dealer will assist you in requesting an adjustment if this becomes necessary. For the added convenience of owners, many GMC dealers are equipped to handle tire warranty adjustments on tires provided by GMC Truck on 1975 GMC Motor Homes.
WHAT IS COVERED

The GMC MotorHome dealer of the owner’s choice will make any repairs on any part of the vehicle except tires, made necessary because of defects in material or workmanship for 12 months or 12,000 miles of use, whichever first occurs, from the date the vehicle is delivered to the first retail purchaser or first placed in service as a demonstrator or company vehicle whichever is earlier.

Warranty repairs and needed service adjustments will be performed without charge to the owner by the GMC MotorHome dealer at its place of business within a reasonable time after delivery of the vehicle to the dealer.

WHAT IS NOT COVERED

- Repairs and service adjustments required because of misuse, negligence, alteration, accident, or lack of reasonable and proper maintenance are not covered, nor are the replacement of maintenance items (such as spark plugs, positive crankcase ventilation valves, filters, and brake lining) made in connection with normal maintenance services.
- Body conversions or equipment not manufactured or supplied by GMC Truck;
- Any part of the vehicle which fails or malfunctions as a result of improper conversion or installation of equipment by other manufacturers or suppliers;
- Loss of time, inconvenience, loss of use of the vehicle or other matters not specifically included are not covered.

POLICY ON GMC VEHICLE OWNER SERVICE

Warranty Service—Foreign Countries—Where General Motors dealer service is not available in the country in which you are touring and warranty repairs become necessary, you should obtain paid receipts covering the work from the service station or garage that performed the necessary repairs. Upon your return to the United States, a statement of the circumstances relative to the warranty work performed along with the paid receipts, should be given to your GMC MotorHome dealer for review and reimbursement consideration.

Paint and Other Appearance Items—Imperfections in paint, trim or other appearance items are normally apparent and corrected during new vehicle inspections. For your protection, we suggest that if you find any paint or appearance imperfection, you call it to the attention of your GMC MotorHome dealer without undue delay, as normal deterioration due to use and exposure is not covered by the New Vehicle Warranty.

Production Changes—GMC Truck, and authorized GMC MotorHome dealers reserve the right to make changes in vehicles manufactured and/or sold by them at any time without incurring any obligation to make the same or similar changes on vehicles previously manufactured and/or sold by them.
