**M & G Car Braking System**

[www.m-gengineering.com](http://www.m-gengineering.com)

An air cylinder is installed in your tow vehicle plus a "quick-connect" air pressure line between your RV and four-down tow vehicle. When you press the brakes in your RV, the brakes in your tow vehicle will be simultaneously and automatically applied through the pneumatic line, giving you the additionally needed braking control and braking force for safe stopping action.
