

"The Black List"

The GMC Assist List

For the GMC TZE Motorhome Community

The "BLACK LIST" originated on the GMCnet email list back at the end of 1998. It's not a naughty list but is named for it's originator, Roger BLACK. Roger continued to maintain the list for several years, then Billy Massey volunteered to maintain and update it till present.

This "GMC Assistance List" is of GMC Motorhome owners/supporters who are making themselves available for what ever assistance they can offer to other GMCers while on the road traveling. Whether it is only to answer the phone to tell them where the auto parts store is or to help change out an engine in your driveway, all owners are needed. Sorry no help for those in an SOB (Some Other Brand). Just a GMC Motorhome.

We would like to have **all** GMCers on the list but you may use it either way.

It has helped innumerable GMCers in need during their travels as well as helped prospective GMCers find their dream coach.

To sign up to be a member or to download the current list, see www.gmcblacklist.com.

Please include other pertinent information such as facilities, tools, knowledge, coffee, tea, beer supply ;-). ... Seriously, we just want to have someone with local information to avoid pitfalls to fellow travelers who have problems.

It has helped innumerable GMCers in need during their travels as well as helped prospective GMCers find their dream coach.

There is also a handy list of recommended GMC Service & Repair Suppliers at the end.

GMC Motorhomes International is pleased to assist Billy Massey in the production, printing, and first mailing of the "Black List" for the GMC Motorhome Community to enjoy.

PHD | I'm new to the area and not real familiar with GMC/MH yet but I can provide a spot to land if you need to have a place to have your rig towed. I have plenty of room and lots of tools. 6/30/2020

Crouch, Mike

Hollywood, AL 35752
907-460-9358
Have a 4000 sq ft shop with tools. Will help any way I can. 10/9/2019

Davis, Michael

Fairhome, AL 36532
650-218-2971
I have worked as a mechanic for 50 years (retired) Although my specialty was not motorhomes, I'm getting to know the GMC better than I had hoped. I have a complete set of tools (no GMC special tools) and am willing to travel a little to help out a fellow GMCer. 11/5/2017

Dowling, Gerald

Dothan, AL 36301
334-790-5991
cptsantee@aol.com
Familiar with workings, especially with the rear end, brakes, etc. Front end anxles, etc. Have some tools for light corrections, and also the usual coffee pot, a phone always on, and a number of dependable mechanics that have heavy Truck experience, plue several who own RV's themselves. Located on 231 South and willing to help out if close to Dothan. 9/15/2016

stinsonflyer@gmail.com
PHD | I have only owned my Palm Beach for a couple of years and I am not much of a mechanic. I will, however, be glad to help someone that is having trouble in any way I can. I have some tools but no specialty GMC tools. I will be

glad to help drive if needed and my wife and I have extra room if someone needs a place to stay for a couple of days while repairs are made. 11/28/2018

Knezek, Jeremy

Indian Springs Village, AL 35124
205-690-0153
c 561-504-5716
jtknezek@hotmail.com
Not much in the way of a mechanic but I have basic tools, a jack and stands, and a driveway that if you can get to the top is flat and has an easily accessible dump and 15 amp electric. Also know a competent local GMC mechanic and have all the standard part stores within a couple miles. Less than 5 miles off I-65, 20 miles south of Birmingham. We are less than 5 miles from Oak Mountain State Park which has a servicable campground as well. 12/3/2015

707-443-8523
curtisunlimited@aol.com
PHD | Have a good set of
tools (including some GMC
specific), spares and over 10
years knowledge of working
and keeping our GMC on the
road. Have place you can work
on your coach or stop and visit
for extended time (can even
store your coach for a while if
needed). Know where to get
parts locally and who will work
on your coach if you can't and
we can't fix what ails it. Don't
do coffee or beer, but wine, tea,
hard liquer, water and soft drinks
are available. Bring your own
steaks- with extras for us- and
we will have a barbeque! Always
enjoy having GMCers stop and
camp in our Redwood forest.
Please call if you are passing
through, even if you don't need
assistance. 11/11/2016

We are the proud new owners of a 1973 GMC Motorhome!!! We would be happy to assist or "meet - get to know" any GMC RV owner or owners passing through our area of central Florida! Many nice campgrounds nearby or park for free in our side yard. Dumpstation a few miles away at Flying J, located north of Tampa on I-75 and SR-52. Text cell phone or continue to call if no answer. We can not always check voice mails.

tjkramis@gmail.com
I work full time - millwright by trade, so solving mechanical problems is in my wheelhouse. I may not be available to show up at a moment's notice, but if I am available by phone, I may be able to trouble shoot your issue, and give some guidance and find resources. On a good day, I could fix you up on the side of the road with a screw driver and a pair of pliers...or a cape cod, and a pair of pliers... I'm told that I "can fix anything", I don't believe everything I hear. If you call, I will ask you very specific questions as to the symptoms you observed before your issue arose. Please think through the sequence of events, and any details - write them down if need be - they are all clues as to the proper solution. If you are stuck and need some help, send me a text anytime, or call between 8am and 9pm. If I can help, I am willing, and able. I have the standard compliment of hand tools, have rebuilt engines, and once a SAAB transmission (just once). My problem is time - if you need to call, may it be well timed! 5/27/2018

I have been a mechanic for 35 years but just recently purchased a GMC. I have access to a shop for short term use and parking for long term. Can provide parking with 50A service and assistance with accommodations and repair. Happy to have overnight stopovers who just want a place to bed down for the night. 12/11/2015

I do my own work on my GMC. I have tools to Mig, Tig, stick weld, plasma cut, oxy/ace. Able to weld steel, aluminum, stainless steel. Have battery chargers, air/hydraulic bottle jack, stands, sand blast capability, lathe, drill press, various hand tools. I am now retired. I do have the manuals on the GMC. One plus item would be to add that I have aircraft and can assist in whatever transport may be needed if a coach breaks down within a reasonable distance from an owner's home site. 12/11/2015

I am an experienced mechanic as well as a minister. I own 3 Revcon motorhomes. I bought the first because I thought it was the same as the GMC. So naturally I know the Oldsmobile drivetrain. I do not have a bearing tool but there is one 20 minutes away. And love the history of the two motorhomes. I know how hard and stressful it can be during a breakdown. If your vehicle needs to be stored for awhile I do not mind. I am about 20 minutes from Mark Andreasen, North Madison, IN and he is also always willing to help. At this time I can not pull engines only engine repairs and help other breakdown issues or accidents. 12/6/2017

(Manistique Lakes) in Upper MI - aka middle of nowhere. We are located about 65 miles West of the Mackinaw Bridge on South Manistique Lake - a couple of miles southwest of Curtis. We bought the lot next door and it has a couple of dumps, 20&30 amp service and water to make your stay as pleasureable as possible. I am retired now but was a vocational autoshop teacher for seven years and a mechanical engineer for almost 30 years after that. If you are broken down, I have a decent shop of sorts and together we can get you patched up enough to get you home. I have a lot of tools (no brg tool yet) and if we can't fix it, I can find someone who can. The beer is cold, the showers hot and the food is good too. Even if not broken down, stop for a nite and camp here - it's free you know! We are gone from Thanksgiving to early April.

I live on 20 acres about 15 miles south of Lincoln Nebraska. Plenty of room to park for the night if you need to. We can plug you into my shop. I have a 30' x 40' heated shop and most hand tools. I also have a small welder, lathe, and milling machine. I bought my GMC in 2008 so I'm still learning the things that are unique to the GMC but if you are having problems we'll get it figured out. I've already removed, rebuilt, and replaced my engine, and also installed a Howell EFI. I work 10 hours a day Monday through Thursday but otherwise I'm usually close by. Call my home number first. If no answer try my (wife's) cell. 12/11/2015

campbelltruckworks@hotmail.com
First time GMC'ers, been a fan for a long time I(Karen) have been into vintage campers for ten years but only with vintage 40's, 50's, & 60's trailers. I've restored 32 trailer from 12' up to 45' park models. I'm the Southwest rep for Tim Can Tourist group and started Vintage Campers of New Mexico. We just got back from Phoenix, AZ with our new GMC 23 foot'er, love how it rides and drives. Kenny's been in the car hobby here in Albuquerque since 1958 and could be very helpful to any GMC'er/6 wheeler in need. He has lots of tools but no special GMC tools. He's been building hot rods, old car & trucks all his life. Kenny's going to put aluminum wheels, 4 wheel disks, one ton knuckles/ brake front end and howell fuel injection. Our friends think we are nuts, we have a 2013 Lexinton B+ with two slides and they can't understand why we'd want an old motorhome but we love our 23' birchaven. I think I have used up the space in this box, looking forward to attending a rally. Karen 12/5/2015

We are located about 10 miles off of I95 near Ft Brag NC. We will try to help with any

problem. If I can not help we will find someone who can. I have assorted automotive tools including compressor, bead blast cabinet, floor jacks, jack stands. I don't have any GMC specific tools. (there are some other in the area that do) I can squeeze one more GMC onto the driveway. We don't have a lot of room, but have gallons of hand cleaner and lots of rags. We both work full time, so please leave a message or try the cell phone #. I have automotive experience and some GMC experience. Also, Drexine's Cell 910-850-8098 (she will know where I am) 12/9/2014

Stevens, Michael

Zionville, NC 28698
c 828-406-0975
PHD | We are new to the GMC motorhome. Our family just wanted a "memory maker" to do some travel with and when we found the GMC I fell in love with it. It needed, and still needs a lot of work, but we are having fun resurrecting the old girl. Our family of five sleep well in it and we all love the smiles she brings as we drive it to campgrounds. Despite being stuck on the side of the road several times due to carb issues, we are excited to join the faithful few GMC owners committed to keeping a classic on the road. I am certainly not a mechanic by any stretch, but have learned quite a bit since acquiring our motorhome. I have depended heavily on a few individuals to help me out of a pinch by phone. We look forward to learning about and using our motorhome who we affectionately coined "Matilda." 11/28/2018

rburkitt@cinci.rr.com
BP | near Interstate Highways 75, 74, and 71. Cincinnati is in the southwest corner of Ohio, adjacent to the southeast corner of Indiana and across the Ohio River from Northern Kentucky. Have all of the manuals and some tools, no inside work area available. I have an engine hoist frame that is available for loan. It is very much like the one in the GM maintenance manuals with a few differences that add to its utility. It breaks down for shipping and has traveled to Michigan, Florida, West Virginia, Illinois and other places in Ohio with good results. I only ask that the user pay for shipping in both directions, provide their own chain hoist and sign a liability waiver. 12/3/2015

careybryan@aol.com
Have most if not all of a bearing puller. Hard to tell without checking it out. Have some friends who are good at muffler repair. General fabrication. Welding. A hose fabrication outfit is local. Some friends in auto repair business. Awesome local machine shop for heads and performance engine builds (convenient timing might be difficult). Possible place to park for a day and night in emergency. Might find real estate for longer parking. Hospitality will increase as we gain experience with GMC. Some tools. Some tools able to be located. A dump station if you have a macerator and 25 foot hose. Battery charger. Jumper cables. Chinese spoken. Hookups coming but as yet not available. Learning about the GMC every day, but not experienced in many maintenance procedures. If I have a strong point, it's electrical. 12/4/2015

PHD | While not full-timers, we certainly could be called half-timers. For the past 3+ years we travelled over 45,000 miles in our coach, spending about 50% of the time living in the coach. We spend a great deal of those months on the road traveling between the Texas Hill Country and the Pacific Northwest, Western Canada, and points in-between, mostly in mountainous or coastal areas. I often refer to our coach as the "Billy Goat." When we are not on the road in our coach, we're usually at home near Kerrville,

Texas, about an hour northwest of San Antonio, just off I-10. Although I don't consider myself a mechanic, I can point you to skilled folks in the area. I do have a fair selection of tools, and a flat spot where you can park and/or work on your coach. Or just drop by for a visit. We have hookup for 20A, 30A, or 50A, good water, coffee, tea, sodas, Blue Bell ice cream, a few Shiner Bocks, and a fair supply of Guinness. Not much in the way of specific GMC parts, but good internet, phone service, and UPS, FedEx, plus O'Riellys, Auto Zone, Etc. When we're on the road I carry a fair assortment of tools, bottle jacks, etc., and am happy to share them and what little knowledge I have with fellow GMCers. 2/5/2020

Our coach, Gus the Bus, has been in remodel mode...total floor replacement and insulation of all walls and ceiling. So I know how everything comes apart. (still working on if I know how it all gets put but back together). I am not fast but can figure out almost anything. I have some spare parts, radiator hoses, airbag, front rotor and misc, filters, etc. that could be put into service in an emergency. I can let you park here in the alley for a few days. No hookups, just extension cords from garage. Pretty good set of tools. Coffee is ALWAYS on, and if the beer runs low. Hey it is Wisconsin... so there are more liquor stores than churches within walking distance. Glad to give back in anyway I can to a community of great folks who have given me much help. Member of GMC Greater Midwest Classics 4/21/2016

We are new G.M.C. motorhome enthusiasts but have wanted one since i first saw one in 70's. We purchased ours in Nov.2008 and spent one long and cold winter (-10 outside -0 C inside) while we built our house. Although coach was in good shape, I changed interior from kitchen forward to accommodate Pat's wheelchair., adding oak flooring throughout. With other upgrades completed we were ready to go. We joined F.M.C.A. and G.M.C. Cascaders, (a great group of R.V.folk.) and went to 3 rallies and had lots of fun and gained lots of tech-info, then the breakdowns started. Long story short, the coach is now in my shop getting motor & trans. rebuilt and upgrading to one ton frontend (rebuilt stock twice). We would like to be added to black list and are willing to help fellow G.M.C.ers any way we can, and invite any one passing through to stop and visit. We live in the Fraser Canyon beyond Hope through the gates off hell (look at a map). Hope to be back on the road in 2013. 12/28/2015

bimet@online.no

I am in the middle of the "Golden route" that runs from Geiranger to Trollstigen in Norway and will of course do what ever I can to help out a GMC'r or an owner of a US built RV. I have a TZE Bearing tool and keep new bearings and seals on hand. I will do bearing service for the cost of the parts only. I will accept knuckles shipped to me, repair the bearings and return them to you. 12/3/2015

ALABAMA

Alabama RV

Mark Creel
Bessimer, AL 35020
205-425-7900
Mark was a dealer/mechanic for the GMC's back in the 70s. He still has at least one GMC at all times and takes care of at least 4 or 5 in the Birmingham area. He does a lot of SOB work to pay the bills, but the GMC is his passion.

Spectrac Suspension Center

Jerry
Gilbert, AZ 85233
480-545-5533
Jerry, was part of the original GMC steering development group. He also innovated the shimmying method for aligning the rear bogey arms. A very GMC savvy business. Appointment needed.

Update 10/23/10: I can no longer recommend this shop due to recent experience.
Submitted by Steve Ferguson

Update 8/25/15: Jerry Hartman is still working at SpecTrac and was able to fix a problem with rear tire wear that several other shops had not been able to diagnose. Jerry fixed my rear suspension (phantom problem was elongated pivot holes), Cleaned up my front suspension and got rid of my steering wobble. I strongly recommend anybody who is in the Mesa/Gilbert area to stop by and get a 6 wheel alignment, as Jerry knows what to look for and may be able to find problems others have missed.

Palmer Service Center

Gastonia, NC 28052
704-867-2307
It was a great experience. We called him early in the am and he said come right over. Don is a very nice guy and knowledgeable. It was a push rod in #1 cylinder, he got parts, repaired it and had us on the road in 4 hours. Would definitely recommend him for mechanical issues.
Submitted by: Elizabeth Netherland
Date: 11/11/15

RD's Service Center

Steve
Gastonia, NC 28052
704-864-1318
Started by RD and Steve - hence the name - when they retired to have something to do. Steve bought RD's share later but kept the name. All the help is older guys, mostly retired, who sort of drop in when there's work. And

they FIX things. And loved the idea of the GMC - carburetor, no computer, you can repair it. Very highly recommended, they do good work for a more than fair price and to a person, they're nice guys. Replaced a failed water pump and repaired the banged up pulley for \$565.
Submitted by: Johnny Bridges (8/2012). Mostly interior work now.

Notes

[illegible]

The GMC Motorhome Registry

The Registry website is where owners of a GMC Motorhome or Transmode are encouraged to register their names and the coach's TZE number (VIN). You will be given the known location history of your GMC.

The information, which is of historical significance, is used only by, and for, owners of these vintage vehicles.

– Billy Massey, Administrator

Visit www.gmcmhregistry.com
